

SAVE TIME AND MONEY
FOR YOUR BUSINESS

Our state-of-the-art treasury and retailer supplies help businesses **improve efficiency and control bank fees.**

All your secure banking supplies in **one place** from an industry-leading provider

Corporate retailers, government agencies and other multilocation entities need easy, reliable access to secure, state-of-the-art banking supplies that help improve efficiency, reduce tampering and losses, and maintain profitability.

Vericast's TranSource solutions offer customized banking supplies outside of those provided by traditional banking relationships.

Vericast and our TranSource solutions have been the industry leader in banking supplies and services since 1995. We have an industry-wide reputation for providing innovative and secure banking supplies. Our knowledge and expertise in critical banking principles and deposit practices are unparalleled for meeting the unique treasury management needs of multilocation businesses.

/ WHY CHOOSE VERICAST

- > Single source for all banking supplies
- > Choose supplies individually or bundled
- > Easy ordering/reordering online and through multiple platforms
- > Fully customizable
- > Highest security standards: SSAE-compliant
- > High-touch and customized approach

/ OUR COMPREHENSIVE SELECTION OF PRODUCTS INCLUDE:

Security Deposit Bags

Multiple embedded security features to reduce the risk of tampering.

- > Bags meet or exceed all banking, armored service and federal requirements
- > Tamper-evident void graphics tape closure
- > Generic and customized printing
- > Available in three levels of protection
- > Premier-level bags have heat, cold and liquid tamper indicators

Deposit Tickets

Save time and money by improving efficiency while reducing errors.

- > Proven to reduce bank correction fees
- > Customized to your business processes to reduce bank fees
- > Guaranteed MICR line accuracy
- > Reconciliation software compatibility

Business Checks

Our high-security laser checks are guaranteed to be compatible with top accounting software programs. We offer the following checks and corresponding window envelopes:

- > Custom Checks
- > Blank Check Stock
- > Laser Checks
- > Manual 3-To-A-Page Checks

Custom Stamps

Custom self-inking stamps ensure consistent business practices and save processing time. Our stamps are manufactured using leading-edge digital technology to produce the crispest impressions for more accurate processing.

- > Signature
- > Address
- > Endorsement
- > Logos

Technical Cleaning Products

The majority of technical equipment malfunctions are simply due to dirt. We offer an extensive range of product-specific technical cleaning supplies to keep your sophisticated equipment running efficiently and for longer periods of time, including gas pumps, smart safes, POS devices, printers, check scanners and more.

- > OEM-endorsed: Our products won't void your warranty
- > Waffletechnology® for four times the cleaning effectiveness over products without it
- > Safe and effective cleaning agents tailored to each device, component and application
- > Customized solutions available

individually or bundled

/ WHY VERICAST

We are more than the single-source for all your banking supply needs. When you choose us, you also get world-class support and state-of-the-art ordering and replenishment capabilities. We offer a highly consultative approach to help you manage the product selection and bundling, ordering, billing and payment options, and customization across all your locations.

Product Selection

All products can be customized and ordered a la carte or bundled together. Separate ordering and delivery options can still be maintained for bundled product selections.

Ordering

Ordering from Vericast is fast and easy. Reorders can be done in less than 30 seconds and orders with changes or new orders are easy to manage online.

Multiple ordering options are available to fit your unique business operations. Orders can be submitted online, or by email, fax, call center, telephone or by .xml file transfer. We also offer inventory control and auto-ship options.

Online ordering operates in real-time and integrates a powerful database management tool for corporate treasury.

Delivery

Choose from flexible delivery options according to your requirements, including direct-to-location, distribution center or third-party distribution center.

Flexible Billing

Convenient payment and billing options, including monthly and weekly billing, are offered for all of our TranSource solutions. Standard and electronic bill delivery and presentment are also available.
